STORIES OF  
**CHANGE**  
 THROUGH THE EYES OF THESE  
 VOL.1

Change is perceived differently and varies according to each individual. Yet, like the Scriptures, each contributor's experience incredibly aligns together perfectly, as though there's a hidden Theme that is guiding and navigating some "Significant Plan" underneath. We hope that is what YOU, the Reader, will experience as you peruse through the pages of some of the individuals we have been fortunate to mentor, train, and assist in the development of their Spiritual, Business, and Psychological Journeys in Life.

Dr. Bridget and I are so very honored, proud, and fortunate, to provide this unique expression to YOU, in their own words, as well as in their own way of speaking.

Enjoy...
